

## Watch Free TV Online and Bathe in Modern Entertainment.

However, to avail any quality product or service, one needs to follow certain steps. Just imagine, without paying any price, you can watch TV on computer. You don't need any additional component apart from PC and Internet connection to enjoy live TV online. But you should remember certain key aspects if you want to watch TV online. Let's discuss the prerequisites to watch free TV online.

1. Your computer should possess at least Pentium 3 processor. If you go for lower version, then the TV streaming will be painfully slow.
2. Your computer's RAM should be of minimum 520MB.
3. The speed of your computer should be of minimum 300MHz. Otherwise, you will not enjoy uninterrupted streaming.
4. Your computer monitor should be 15"-17" in size. Less width will put stress on the eyes. It will be nice, if you have flat screen monitor. Many IT brands are offering computer monitor cum TV in the market.
5. The Windows operating system should be of at least WIN 2000 or more advanced.
6. Obtain an effective media player (e.g. Real Player, Windows media player) to ensure.
7. Go for a broadband connection to ensure faster buffering period and uninterrupted enjoyment.
8. There is special software to allow accessing thousands of TV channels. You can easily download it from the Internet. Once you download it, then you can enjoy the best of free TV online.
9. You should not fall into advertisement traps. Many websites claim that they offer free TV show, but in reality they charge a substantial amount of service charge.
10. If you satisfy the above requirements, then nothing can stop you from enjoying quality free TV online. If you have bought your PC within the last 3-4 years, then there is no tension about the capability of the Computer to show online TV channels.

In an age, when nothing is absolutely free, you can watch live programs like news or sports events without paying any price. You will also be able to watch the best channels of any country, even if they are blocked in your own country.

Free TV online has heralded a revolution in the entertainment world. Armed with your laptop and a good Internet connection, you can avail the online TV channels from any corner of the world. Whether you enjoy some quality time at a lonely beach resort or trek through rocky mountains, you will always enjoy the companionship of free TV online. It is up to you whether to accept the friendship or not.
